5.TITLE OF THE TOPIC : MICROSCOPY

Telangana Social Welfare Residential Degree College for Women Mancherial
Guest Lecture - 2019-2020 Academic year
Department of Botany

Guest Lecture on - Microscopy

Name of the Resource person: K. Shivaleela
Head, Department of Microbiology

Designation: Degree Lecturer

Academic year: 2019-2020

Date: 23-08-2019

Topic: Microscopy

No. of students attended: 36

Work Report on guest lecture:

Microscopy is the technical field of using microscopes to view objects and areas of objects. Microscopes allowed that produce enlarged images of small objects, allowing the observer to see details that are not visible to the naked eye. Microscopes are used in a wide range of scientific disciplines. In biology, microscopes are used to study the structure and function of cells and tissues. In medicine, microscopes are used to study the structure and function of organs and tissues. In agriculture, microscopes are used to study the structure and function of plants and animals. In industry, microscopes are used to study the structure and function of materials. In forensic science, microscopes are used to study the structure and function of evidence. In environmental science, microscopes are used to study the structure and function of ecosystems. In space exploration, microscopes are used to study the structure and function of planets and moons. In archaeology, microscopes are used to study the structure and function of ancient artifacts. In geology, microscopes are used to study the structure and function of rocks and minerals. In chemistry, microscopes are used to study the structure and function of molecules and atoms. In physics, microscopes are used to study the structure and function of particles and waves. In astronomy, microscopes are used to study the structure and function of stars and galaxies. In cosmology, microscopes are used to study the structure and function of the universe. In quantum mechanics, microscopes are used to study the structure and function of particles and waves. In string theory, microscopes are used to study the structure and function of strings and branes. In supersymmetry, microscopes are used to study the structure and function of supersymmetric particles. In quantum gravity, microscopes are used to study the structure and function of gravity and spacetime. In quantum entanglement, microscopes are used to study the structure and function of entangled particles. In quantum teleportation, microscopes are used to study the structure and function of teleported particles. In quantum cryptography, microscopes are used to study the structure and function of encrypted messages. In quantum computing, microscopes are used to study the structure and function of quantum bits. In quantum communication, microscopes are used to study the structure and function of quantum channels. In quantum information theory, microscopes are used to study the structure and function of quantum information. In quantum field theory, microscopes are used to study the structure and function of quantum fields. In quantum electrodynamics, microscopes are used to study the structure and function of electromagnetic fields. In quantum chromodynamics, microscopes are used to study the structure and function of strong interactions. In quantum electrodynamics, microscopes are used to study the structure and function of weak interactions. In quantum gravity, microscopes are used to study the structure and function of gravity. In quantum cosmology, microscopes are used to study the structure and function of the universe. In quantum cosmology, microscopes are used to study the structure and function of the universe.

TSWRDC(W)-Mancherial

Designation: Degree Lecturer

Academic year: 2019-2020

Date: 08-08-2020

Topic: Plant Family: Cucurbitaceae

No. of students attended: 23

Brief report on extension lecture:

Plant family Cucurbitaceae has a great economic importance, which is composed of valuable plants used as fruits and vegetables. Certain important vitamins, minerals and plant chemicals vegetable production provides a promising economic opportunity for reducing rural poverty and unemployment and also students learnt the distinguishing characters of Cucurbitaceae.

B. Keerthi madam has clearly explained the systematic position, distribution, habitat, vegetative and sexual characters of family Cucurbitaceae.

ACKNOWLEDGEMENT

I would like to express my profound gratitude to Mrs. B. Keerthi, Head, Department of Botany, Telangana Social Welfare Residential Degree College for women, Mancherial, for describing the importance of family composed of economically valuable plants, used as fruits and vegetables can help protect us against cancer, diabetes and heart diseases and also explained vegetable production provides a promising economic opportunity for reducing rural poverty and unemployment and also it is a key component of farm diversification strategies.

I would also like to extend my thanks to our college principal Dr. C. Srinika Subhashini madam for providing all the necessary facilities required for the conduction of extension lecture.

Finally, I would like to thank Academic Co-ordinator

Subject : Chemistry
Topic : Co-ordination Chemistry
NO. of students attended : 40

Brief Report on extension lecture

Like the department of Chemistry has organized extension lecture on the co-ordination compounds on 26-10-2019 for B.Sc students

The speaker of the session was D.Ramesh from Chaitanya Degree college has given an extraordinary knowledge about co-ordination compound

-At the end of this session sir as given idea about nomenclature of co-ordination compounds theories of co-ordination compounds.

EXTENSION LECTURE:

1.ACADEMIC YEAR:2020-2021

2.NAME OF THE RESOURCE PERSON: M.SHIVAKRISHNA

3.DATE:04-03-2021

4.DESIGNATION : DL CHEMISTRY

5.TITLE OF THE TOPIC : IR SPECTROSCOPY PRINCIPLES AND ITS APPLICATIONS

Extension lecture through webinar

30

Name of the Resource person : M. Shiva Krishna
 Designation : Degree Lecturer in
 + Theoretical Chemistry
 Academic year : 2020-21
 Date : 01-05-2021
 Subject : Chemistry
 Topic : IR Spectroscopy principles
 and its applications

No. of the students & lecturers : 70
 attended

Brief Report on Webinar :
 We are the revivalment of Chemistry Tawana
 (W) Mancherla has organised state level webinar on
 the speaker of the session was Dr. Shiva
 Krishna M. (M. Shiva Krishna) from Tawana
 college he has discussed following points
 1) What is Spectroscopy
 2) Introduction of different radiations & based on
 that different types of Spectroscopes

PRINCIPAL
 TSWRDC(W)-MANCHERLA

31

3) Principle of IR spectroscopy
 4) Applications of IR spectroscopy i.e. calculation of
 bond length bond orders and identification different
 types of functional groups by using IR spectroscopy.

EXTENSION LECTURE:3

1.ACADEMIC YEAR:2021-2022

2.NAME OF THE RESOURCE PERSON: R.SAVITHA

3.DATE:05-08-2021

4.DESIGNATION : DEGREE LECTURER IN CHEMISTRY

5.TITLE OF THE TOPIC : SPECTROSCOPY

Telangana Social Welfare Residential Degree College for Women, Mancherial (635)
2021-22 Academic Year

Guest Lecture - Department of Botany

Name of the Resource Person: R. Savitha
Head, Dept of Chemistry
TSRUWC (W) Mancherial

Designation: Degree Lecturer

Academic year: 2021-2022

Date: 05.08.2021

Topic: Spectroscopy

No of students attended: 26

Brief report on Guest Lecture:

Spectroscopy is used as a tool for studying the structure of atoms and molecules. A large number of wavelengths emitted by these systems make it possible to investigate their structure in detail, including the electron configuration of ground and various excited states. Spectroscopy is based on the interaction between light and matter (absorption of or light or visible light by chemical compounds, which results in the production of distinct spectra) by leaf spectrometers are used to detect and quantify the amount of chlorophyll in leaves.

R. Savitha requests explained very well regarding the importance of Spectrophotometry in biotechnology for quantification of macromolecules, study of biological pigments and monitoring enzymatic reactions and microbial growth. Thanks

Savitha

Name of the Resource Person: L. Ramsuresh
Designation: Head Degree Lecturer in History, TSWRDC(W) Mancherial
Academic year: 02-11-2022 (2021-2022) and Date
Topic: Orientation on Competitive exams.
No of Students attended: 28
Brief report on Special lecture:
L. Ramsuresh, Head, Department of History, Telangana Social Welfare Residential Degree College for Women, Mancherial has eloquently explained on the competitive exams. Reading news paper daily is important & it is helpful in finding opportunities and also prepare daily current affairs notes by self which helps in competitive exam preparation.
Major points explained about the Group I, Group II, and Group III Jobs, syllabus, reference books etc.

Principal
TSWRDC(W) MANCHERIAL

ACKNOWLEDGEMENT

I would like to express my sincere gratitude to L. Ramsuresh, Lecturer in History, TSWRDC(W) Mancherial for her invaluable guidance on Competitive exams.

I am extremely grateful for the direction and advice provided to our students which is help for frame their careers in future.

Finally, I thank to our principal madam Dr. C. Smitra Subhashini.

EXTENSION LECTURE: 4

1. ACADEMIC YEAR: 2021-2022

2. NAME OF THE RESOURCE PERSON: S. SWAPNA

3. DATE: 25-10-2021

DESIGNATION: LECTURER IN COMMERCE

TITLE OF THE TOPIC: CAREER OPPORTUNITIES WITH TALLY

TELANGANA SOCIAL WELFARE RESIDENTIAL DEGREE COLLEGE FOR WOMEN, MANCHERIAL

2021-2022

Date: 25-10-2021
 Group & year: B.Com(A) 3rd sem II year
 Resource person: S. Swapna
 Lect. in Commerce
 Res. Degree & Pg. College, Lucknow

Topic: Career opportunities with Tally

We the Department of Commerce TSWRDC(W), Mancherial organized a Extension Lecture on "Career Opportunities with Tally". The Extension Lecture given by Swapna from Government Degree and Pg. College. The session was attended by B.Com(A) and B.Com(B) 3rd year

TELANGANA SOCIAL WELFARE RESIDENTIAL DEGREE COLLEGE FOR WOMEN, MANCHERIAL

10

Students and Staff: The lecture delivered by the Resource person in a effective way. The session went like a interaction session. All the students were appreciated by Resource person for their active participation. Now a days every institution or organization using Tally software to maintain their account. It's receipts, payments, incomes and Expenditure of the organization. So Tally is a vital role in organization.

2022-23
Department of Botany
Guest Lecture on "Regulation of Cell Cycle"

Dr. S. Purnima ma'am, Head Dept of Zoology (Swarnajayanti)

Dr. S. Purnima, Head Department Zoology
Date: 19.08.2022
Topic: Regulation of Cell Cycle
No. of students attended for guest lecture: 34
Bridge report on guest lecture: -
Dr. S. Purnima, Head Department Zoology
from Swarnajayanti residential degree college explained about the cell cycle and its regulation.
I discussed about the cell cycle and its regulation.
I was fascinated by the cell cycle.
I have clearly explained the Check Point, G1, S, G2, and M phases and their significance in the cell cycle.

ACKNOWLEDGEMENT

I would like to express my sincere gratitude to Dr. S. Purnima ma'am, Lecturer in Zoology for giving a excellent lecture on "Regulation of Cell Cycle" to our students.

I am extremely grateful for the support given by our principal ma'am D. Sumathi, TSWRDCW, Mancherial.
